# ELBA STUDENTS REPORT

## Elba Students Attend Math Tournament

Eight students from Elba High School attended the 38th Annual Mathematics Tournament at Lurleen B. Wallace State Junior College in Andalusia on Friday, February 17. Team members from Elba were Melanie Carley, Steve Johnson, Bobby Jones, and Jane Kidd; alternates were Alice Brunson, Cherie Clay, Donna Coon, and Debbie Padgett. The Elba sponsors for this event were Sue Adkins and William Boyd.

Over 200 young people from thirty-five high schools in South Alabama and Northwest Florida participated in the tournament. The schools were divided into two divisions, Class A and AA, for competition in a written examination and a ciphering contest.

Team trophies were given to the top four teams in each group. In the Class

A division, Georgiana High School won first place, Samson second place, Florida third place, and Geneva fourth place. In the Class AA division, Andalusia High School won first place, Enterprise second place, and Crestview third place. Individual trophies were also awarded to the top three students in each division. The Andalusia Rotary Club, Kappa Kappa Club, and the LSW Student Government Association provided three scholarships to top team members competing for scholarships to LSW.

The math tournament was a project of the Mathematics Division at LSW. Dr. Marilyn C. Beck, division chairman, was in charge of the day-long event. She was assisted by James Donaldson and Lloyd Henderson, LSW math instructors.

On Saturday morning, February 5, several of the students donated their time to sand and varnish the desk, wash the curtains and walls, and mop and wax the floor. This group consisted of the following: Rhonda Morrow, Owen Grimes, Dianne Pope, Sandra Daniels, Mike Holderfield, Tony Martin, Buddy King, D'Andrea Daniels, and Rodney Hamm.

This is only one example of what young people are willing to do and I sincerely appreciate what they did.

## GRASSROOTS

Many communities working to prevent drug misuse only need a place in the community where young people can talk to each other, and in the process, head off reliance on drugs. These facilities are known as "awareness houses," "listening posts," "frustration forums," and "rap centers." Whatever the facility is called, what's needed is a place to meet (regularly), some money, man-hours, professional counseling. What we caution about other programs applied equally as well to awareness houses.

Many communities have discovered that it's young people who cannot "find themselves," because they feel cut off and adrift from society. In some towns, "awareness houses" have been founded to provide a setting for self-discovery and open-ended discussion. Operating under guidance, but not adult direction, awareness houses give kids a place to talk it out, to find common ground with each other, and frequently, to find out more about themselves.

The basics are a storefront meeting room, a volunteer or part-time counseling staff or single professional, and the use of support services of clerical work and maintenance. The key to the awareness house concept is responsibility. The center will probably be most effective if the young people who use it are given major control over its operation. Responsibility, in many cases, leads to self-discipline and self-awareness, and these, in turn, can help a young man or woman head off drug abuse before it becomes a two-way street.

Wish I'd Said THAT

"For nearly 30 years, the Federal government has tried to reduce farm output to certain levels—and has failed. For more than 40 years, the Russians have tried to raise farm output to certain levels—and have failed. It just goes to show you that governments set out of the farm business—Harold S.
